EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR §1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claims 30-34 have been cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative, Mr. Thomas Bilodeau (Reg. No. 43,438) on March 23, 2005. During the interview, Examiner indicated that these newly submitted claims were directed to an invention that is independent or distinct from the invention originally claimed, since the original claims (and newly presented claims 18-29) are directed to a system/method for downloading service contract information, application programs and device drivers to a board packaging line system, while newly presented claims 30-34 are directed to a package defect source determining system.

Since Applicant received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 30-34 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR §1.142(b) and MPEP §821.03. As such, these claims have now been cancelled.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maria N. Von Buhr whose telephone number is 571-272-3755. The examiner can normally be reached on M-F (9am-5pm).
